

## The Local Choice Health Benefits Program

### **TLC ABA Member Letter**

January 9, 2014

Dear [User of ABA Benefit]:

Since July 1, 2012, The Local Choice (TLC) Health Benefits Program has covered applied behavior analysis (ABA) services for children with autism spectrum disorder, ages two through six. The benefit included a \$35,000 annual limit for these services.

We are pleased to let you know that the program has improved the ABA benefit by removing the \$35,000 limit retroactive to July 1, 2012. More information may be found on the TLC website at [www.thelocalchoice.virginia.gov](http://www.thelocalchoice.virginia.gov).

If you have a covered family member who had claims in any plan year that you believe have been impacted by the \$35,000 annual cap, please contact The Local Choice program at 1-888-642-4414 or (804) 225-3642 in Richmond. You may also send an email to [tlc@dhrm.virginia.gov](mailto:tlc@dhrm.virginia.gov).

.

Sincerely,

The Local Choice Health Benefits Program
