### **Great News! TLC Renewal Adjustment for 2021-2022**

One of the benefits of The Local Choice program is that the experience is pooled across the member groups. TLC groups share in the success of the program with lower than average annual rate changes and low administrative costs. Due to recent overall favorable program experience, there will be a one-time adjustment of a 4% decrease reflected in your 2021-2022 fiscal year renewal. This one-time adjustment will be shown as a line item on your renewal exhibits.

Your group will be receiving the TLC 2021-2022 renewal by the end of February. Your Anthem Account Manager will answer any questions that you have about this adjustment, or any other questions as they relate to your renewal.

Thank you for your partnership with the Local Choice. We look forward to working with you again in the upcoming year.
